

## **Tajima Ambassador Viewer**

Tajima Ambassador is capable of reading and writing many types of embroidery design files. The thread colours are chosen by brand and number on screen and stored as a PXF file for future reference. A worksheet may be printed showing the colour sequence before sewing.

### **Tajima Ambassador instructions**

To install the viewer, save the file "Setup.exe" to a folder.  
double click "Setup.exe" and follow the install instructions.

After installation go to: Tools/Configuration/User Settings to change the company name that prints on the work sheet and to choose the default thread charts you would like to work with.

When opening a design click the down arrow next to "Files of type:" and select "All Design Files" from the bottom of the list to make sure you are able to see the type of file you wish to open.
